INTRODUCTION

The initial volume in this series indexed death notices in the Eunice News, formerly the Eunice New Era, for the period 1924-1974. This volume, the first supplement, extends the coverage for the period 1975-1980.

Indexing follows the spelling of the names as they appear in the newspaper accounts. Correction and verification of questionable spellings has proven impossible. Where possible, married women have been indexed under both their maiden and married names followed by the husbands' names in parentheses. Married names are in capitals; maiden names are in upper and lower case letters.

Files of the Eunice News are available at the LeDoux Library, Louisiana State University at Eunice. The text of individual notices will be provided upon request.

James L. Forester
